

I attended a forum at KAET Channel 8, Tempe concerning broadcast ownership. I am convinced that it's a bad idea to concentrate ownership in a few hands. Don't approve these regulations. They will impede the free flow of information necessary to retain our democracy. There were many who spoke at the forum about frustrations with the concentration we have today. Clear Channel dominates AM and has frozen out independent musicians. Right wing talk dominates AM leaving other political views without a voice. We don't need more of the same.
